## ABOUT ME

I officially began my journey in 2016 when I enrolled in a technical university, acquiring theoretical knowledge. Meanwhile, I embarked on a student internship, which provided me with practical experience. Later, I transitioned into full-time work, taking on numerous responsibilities. Fast-forward to the present day, I have relocated to Germany and am exploring new opportunities. Specializing in front-end development and WordPress, I bring proficiency in back-end as well. I am always enthusiastic about learning new technologies, beyond a specific focus area.
